- Daily Play Preparation: Changing hole locations and placing tee markers.
- Sand Bunker Maintenance: Raking and maintaining sand bunkers.
- **System Operation**: Operating and maintaining irrigation systems.
- Maintenance and Repairs: Addressing any issues or repairs needed for the irrigation system.
- **Vegetation Management**: Trimming trees, shrubs, and other vegetation.
- Plant Care: Planting and caring for flowers, trees, and ornamental plants.
- **Equipment Use**: Safely operating mowers, aerators, tractors, and other necessary tools.
- Routine Maintenance: Performing routine maintenance on equipment.
- Minor Repairs: Conducting minor repairs on equipment and course infrastructure.
- Winter: Removing snow and handling other winter-specific tasks.
- Spring and Fall: preparing for seasonal changes.
- **Documentation**: Maintaining accurate records of maintenance activities, chemical applications, and equipment use.
- **Protocols and Guidelines**: Adhering to all safety protocols to ensure a safe working environment for staff and golfers.

May 2021 - Retail Sales Assistant Apr 2022

Flamingo Flowers & Plants Netherlands, Enschede

- Use prospecting strategies to lead initial outreach
- I managed to bring 20 more supermarkets onboard
- 8 in Germany and another 12 in Netherlands
- Identify sourcing needs and challenges of the prospective customer
- Contact FTD members that have not purchased to meet or exceed new buyer targets
- Win back former Flower Exchange customers that went dormant, not ordering in more than 90+ days
- Meet daily minimum requirements for outbound calls and notes
- Transition a new Flower Exchange customer to the assigned Flower Exchange Territory Manager and provide insight to our onboarding experience
- Assess sales performance according to KPIs Pipeline management from prospect, to needs analysis, to proposal, to negotiation, to sale Perform other duties as assigned.

Technical Sales Manager Horticulture & Floriculture Feb 2020 -May 2021

Greenlife Crop Protection Africa Limited, Nairobi

- I meet personal and team sales targets
- Which I managed to achieve 100% of my Target most of the time
- I understood production process of flowers and vegetables and the key products that can be sold (Fungicides and Insecticides)
- I went 'extra mile' to drive sales in the assigned territory
- I ensured high levels of customer satisfaction through excellent sales service, actively looked out for potential customers and followed through sales leads
- I maintained and expanded customer database within the assigned territory
- I assessed customers' needs and provided assistance and information on product features
- I created and submitted regular reports with sales, customer and product data
- I tracked customer payments and deliveries, as necessary, cross sell products
- I understood customer and market dynamics within the assigned territory.

Apr 2018 -Greenskeeper Apr 2019

Old Sod Landscaping, Massachusetts

I mowed, edged, and trimmed lawns, while pruning shrubs, trees, and hedges to maintain their shape and health. I weeded, fertilized, and mulched garden beds and landscaped areas, and planted flowers, shrubs, trees, and grass as needed. I installed, maintained, and repaired irrigation systems and watered lawns, trees, and plants manually or using automated systems. I maintained greens, fairways, and bunkers on golf courses, using specialized equipment, and applied fertilizers and pesticides safely. I operated and maintained

landscaping equipment, collected and disposed of litter, maintained outdoor fixtures, assisted in seasonal tasks like snow removal, and ensured safety compliance in all tasks.

Aug 2015 - Sales Agronomist Oct 2016
