I started out working at golf courses at the age of 16, it's always been my goal to be a golf course superintendent. I am a hardworking, responsible, and trustworthy agriculture enthusiast currently looking to work full time employment with a company that understands I can be relied upon to do my job properly and professionally. Golf course agronomy is my passion and I'd be willing to do what I need to do to get my career started. I wanted to get as much turf experience as possible, so after a couple internships and golf course employment opportunities, I went to RS3 Turf as a Turf Specialist. AS in plant biology and finishing up BA in Integrative studies (Horticulture, business, agribusiness) spring 2024.

Authorized to work in the US for any employer Work Experience

Relevant turf experience:

Turf Specialist

84 silver

June 2017 to December 2019

84 silver

Family-owned antique and collectible business, with extremely rare and precious antiques among the inventory. My responsibilities were to ensure orders were met, be they online, by phone, or in-person; ensure customers were pleased with the service received by emailing surveys or placing follow-up calls; explain the benefits of the products; remove items from various warehouses, and to educate the general public on the history and cultural significance of the items we purchased, sold, and traded.

Golf Caddy
