Golf Enthusiast

ABOUT ME

I am a friendly and outgoing individual with a passion for problem-solving, which has shaped my approach to any role I take on. While I've developed a strong background in technology through studying Computer Science and working as a Full-Stack Developer, I'm eager to apply my skills in a more hands-on environment. My ability to quickly adapt, think critically, and collaborate with others will enable me to contribute positively to any team. I am excited about the opportunity to work in a golf-related position, where attention to detail, customer interaction, and problem-solving are key to ensuring a great experience for players and maintaining the course.

EDUCATION

- Achieved **92%** for Mathematics and an **A** for IT in School.
- Degree in **BSC Computer Science** at the University of Pretoria
